EO 13984 requires the Secretary to develop regulations requiring United States Infrastructure as a Service (IaaS) providers to verify the identity of their foreign customers and authorizing the Secretary to use special measures to deter foreign malicious cyber actors’ use of United States IaaS products. The Attorney may also perform rulemaking and other legal duties related to ICTS work, as assigned. Additional duties include: providing technical legal advice, particularly in connection with the Department’s ICTS authorities; drafting and reviewing statutes, regulations, and Executive Orders that include Department equities as they pertain to ICTS; reviewing compliance with statutory, regulatory, and executive order requirements, and coordinating with other Departmental and interagency offices, as necessary; and counseling and bringing to the attention of office and Department leadership matters within the purview of the office. In addition, the Attorney-Advisor will be required to carry out duties such as legal research, and development of legal recommendations related to the Department’s ICTS responsibilities.
